1 – Introduction to the Practice

The beginning of Comprehension about the Inner Job

It's of immense importance to assimilate correctly the practices that Gnosis transmits, because by the quality of application of these practices is that one will achieve results. You must really want Self-Realization and this is something very particular (see *chapter First Mystery*). It will never be something merely subjective as decorating and distributing around. You must have lived the direct practical experience. We all are assisted here and now. The practices are divided in two categories that cannot be mixed, because they are distinct forces and objectives.

The first part is **revolutionary practices**, which consists in supplications to Divine Mother to dissolve each involuntary impulse that comes from a defect inside of us that has many commitments in our life, troubling here, there, always with many tasks, humbugs, brawls, perpetuates mistakes of others, personifying them in himself. The egos are always creating new gears, even inside the teachings the egos participate converting everything in mechanic habits. It's necessary for students to wake up to this reality. Reason why is explicit in this Work that has been given, which is always in transformation, always being lapidated, in constant move, like a crop, a big strainer, a harvest in fact, new retakes, to break up precisely with these mechanic habits created by the ego doctrine. It's noteworthy that it is

something revolutionary that only revolutionaries comprehend.

In all defects we have, there it is “cocooned” big amount of essence (light). When we talk about perpetuating mistakes, we refer that these defects go creating a mental form at every moment, that has own will and a commitment with this frequency of thinking we feed, generating feelings, wills of all kinds, ultimately, a huge interior imbalance. Egos of defeatism, egos of impatience and anxiety, egos that petrify doubts, not letting us go practice.

Two types of practices.

The practices related to the death of defects are called **revolutionaries**. They use revolutionary forces for the dissolution of defects inside our psychology.

The second part turns out to be the **mystic practices**, which consists in the pursuit for meditation. It's through meditation that we'll give conscience to the essence we released from the defects through supplications. Each supplication we do in the revolutionary practices, they go unwrapping tiny particles of essence, which will aggregate to what we have of conscience. These essences that have been released bring with them the information from the defect they were conditioned to. It's where will be formed what we call objective comprehension.

2. Where did the psychological defects come from ?

The psychological defects arose by the mechanicity, the strong tendency of things to be automatic, rails of mechanical habits, in laziness, conformity, reasoning rails of a subjective intellectuality, arise and feed each moment. If we are alert, we will see this happening. If we are sleeping, in fact they are feeding themselves of the machine centers, stealing energy to strengthen.

When we are in trouble, we generate desires, fantasies, fear, pride, anxieties, manias, meanness, addictions, lust, gluttony, laziness, wrath, misunderstanding, being loose to the tide of life, and it turns out that it will generate actions and back will have opposite reactions, which are extremes of the same defect, any of those that have been cited.

Example: if a person feeds repression to drink, of course that repression is not dissolution, on the contrary, it is the same defect at another extreme. So it is in all our actions, they will have always a reaction corresponding to what we most fear. If someone says: "I hate cigarettes or who smoke," he does not know that there are many smokers inside. When you say that you hate something, in fact generates hatred and personifies angry desires.

The verb has power. If you say anything that opposes to something, is already a latent reaction of internal work, it shows that it carries the same thing that it repudiates. This explains another biblical metaphor. The fear of something becomes evident that the same defect block is fed. This is undeniable.

"Tell me who you walk with and I'll tell you who you are."

It refers directly in the sentence who you walk with - to lean on psychological defects. Of course this will attract for themselves, several individuals of the same psychological affinity. This explains why drunks only live with drunks.

From this reflection, we find out a very interesting contrast, which is the fact that nobody has an affinity with The Son of Man because He is unique among all, without affinities. They all see Him as menacing. For fear of transformation that emanates from Him at all times. Walking along with Him turns out that it will need to be in constant transformation, in fact, the smallest weaknesses will be shown only for being close to Him, without Him making any effort for this to happen.

People cry, tears roll for no apparent reason, something really moving, others protest against, false disciples appear, traitors, etc., but no one explains. If someone tries to explain it turns out that it

will never be explained, always letting something vague, empty, missing. However, another metaphor given by the Son of Man gives some reflective emphasis on this issue: "The wind blows where it wishes and you hear the sound of it, but do not know where it comes from and where it is going; so is everyone who is born of the Spirit."

The Son of Man delivers the Direct Path, He is the only one who knows the way. The doctrine of ego deadly hates the Direct Path of Innermost Christ, so it attacks the Son of Man.

Actions will always generate reactions, this is undeniable, however we propose not to react to any situation of our life. Don't add anything to the one that generated the action, because as we say anything against the person who acted, whether it is hate, misunderstanding, unconsciousness, stupidity, arrogance, ignorance, ingratitude, etc., we are bound to get equal to it, we must keep ourselves totally out of reactions, seeking the impulses that react in, at that moment.

These reactionary psychological egos are always opposite to anything that happens. On the other hand, if we know about something or some danger and we don't warn, it will actually compete in the crime of omission, of selfishness. All angles of inner work lead us to constant retakes of consciousness. But it will only happen in individuals who have

already matured internally to the octaves within the inner work.

As a friend said: "Gnosis is like a train of wisdom, many enter a station, but few continue until the end, most of them are coming down the next station. " Yes, they come down thinking that they are already deeply acquainted with Gnosis. No reaction is the basis of humility, as Gandhi and Jesus gave us examples, among others in the history of humanity.

The egos always react, whether it's escaping or scorn, accusations, judgments against people, thinking they are sovereign, righteous and pure, always feeding something against someone, this or that. The egos always seek to imprison people in dogmas of less effort, into manias, gossip, etc. That is why it is urgent to be dying in these impulses, not letting faint down the love that you have, exchanging it for selfishness.

It is urgent to discover the defects that act and dissolve them with supplications to the Mother. It came to me the courage of Paul of Tarsus who went to Rome, and his disciple Barnabas, had already warned him that going to Rome would be a suicide, telling him to stay there delivering the Teaching to

Pagans and Greeks who accepted his Teachings. However, Paul went to Rome. *"Love only those who loves you? What merits will you have?"* (J.C.) - The defects create gears at every time, always to what suits it. Easiness.

Defects arise and are embodied in all our actions and reactions, are forms of thought, feeling, manias, postures, fanaticism, etc. There have already been cases of person to read the text of another person, to see it as authoritarian, angry, and when meeting that person said that it's not the same person.

Who creates those wrong impressions? They are the defects of antipathy, mystical vanity of deceitful egos, always defending themselves, they fear to be discovered, fear to be transformed, foreseeing gossip that creates pseudoclarividence, projecting his envy on the other person. It creates terrible mental hells, embroiling people around to personify the projected errors. Doesn't realize that everything that is happening comes from your own mental hell.

Thus, there are innumerable cases of schizophrenia, panic, depression, stress, due to non-application of nutrition. All these psychological disorders are illusions personified by the egos (psychological defects) in the bodies of desire. The authentic Gnosis teaches that all these situations are a plate

full of discoveries to the ones who really are with inner work.

Commonly, people who always defend themselves satisfy crowds of egos, pointing out their own mistakes on others. This is the mirror, the personification of mistakes which says Master Samael. Therefore, whoever says that knows about Gnosis, of course, is another ambusher, because Gnosis will never be conniving with the subjective knowledge of the ego.

These are just a few clear examples of defects, which is enough to know what we are internally, taking then disciplines to give an end to this multitude of psychological defects inside us.

There is time of tests like a warrior. This time certainly is in the courage, in the direct confrontation against the great whore and his minions inside and outside. Just as there is time of humility, loyalty, tenacity, patience, honesty, etc.

Everything will be tested on us. Welcome to Inner Work! Fight continuously to never slip.

3.The Beginning

This Inner Job is the truth teaching of Gnosis, which starts in the self-observation of your own, with the objective of self-discovering. Practicing continuously, turning the attention to inside of us in a continuous way.

Self-Observation

We indicate as fundamental this practice of continuous Self-Observation to a single inner point. Because from this, we go self-discovering ourselves truly, seeing how we are vulnerable to everything surrounding us.

With this Self-Observation continuous to our interior, to everything moving around in our psychology, is that we get more conscientious of who we really are.

Certainly, these practices demand from us a daily and constant retake. It's actually more correct to say second by second in continuous self-observation.

4. The Transformer Principle inside of us.

At first, has to be clarified here to everyone the work of Monads, because each one of us has a Monad from where we were originated. They want to develop in all of us the Christic Conscience, making germinate the Solar Seed which exists inside of us.

In fact, it will require an acceptance of these basic principles suggested in this book to go inside of yourself, winning over barriers that will rise up. Don't look for, and don't even worry about to know what is the name of your Monad, because aside from generating anxiety, feeding many expectations, it makes you miss the simplicity which is seek for the truth work of denying yourself. Indeed, it feeds vanity and mythomania, which are psychological defects that come only to disturb the work that could have been started before by The Father. Other Solar Brothers that achieved the Inner Overcoming, in real and unique Self-Realization, warned us about those terrible egos.

We all must pass through the Cosmic Drama, facing all kind of situation. Ingratitude and disrespect wouldn't be missing, both inherent to the path, originating many conscience retakes, to win over egos. All this process, including this of a thousand complaints, accusations, where being truth we are accused to be false. The Son of Man, which is in secret, will always be comprehended by very few. Happy is the one who learns all the lessons that He transmits and always restarts from zero. Being with Him is to receive lessons every second, so one must be very careful to the situations. Even in ingratitude, He forgives everyone for not being comprehended. But with a noble purpose He's always seeking solitude, to find out His own the problem, dissolving it secretly. Inner enlightenment will never be about gabble, arguing, theorization about God, it's quite the

opposite. Receiving this book, each one that wants must practice it immediately, silencing the gabble that leads to mental confusion.

It's suggested to the people that comes proving the efficiency of the job to gather in their wards with people that looks for the same purpose, creating a place where they can unite to practice. Be it an external place aside from your houses, where none sleeps in. Like a practice room, only for this purpose. Fight to wake up conscience to protect yourselves from the leftists to Father's purposes, that infiltrate to upset everything, minions of Balak, believing to be most important than anyone. The beginning of this job is to deny yourself in fact. Supplicate strength to the Internal Monad to restore your humility, so that you can comprehend the lessons and apply them. To know if Masters are truth, only the overcome job will do it, in total dedication of yourself in this job. Be pacific, loving, aware, comprehensive and revolutionary against your own selves, so that you don't get yourself polluted by anything. Follow your hearts, be hermetic. When you discover falsity, don't have any reaction, don't want to be on false's place, you'll be losing your essences, humility, and the freedom to love simplicity and loyalty of Being.

The enemy frequencies are always coming to put bad thoughts, totally false, to generate problems and identifications. We all have seen these problems at lots.

For example: When we offer to help someone, if pride and its internal minions take this one to protest against us, coming with slanders and etc., not receiving the help because of pride, it's because they believe to be perfect. But, the ones who live this book will become perfect if you practice it correctly.

When an attitude like this happens from a brother, do not condemn him, nor censor, just give yourself the opportunity, letting yourself comprehend the defect. After that, supplicate the dissolution to Divine Mother, because it's an evil inside that exists in all people. If you saw it in someone it is a sign that you have the same, we need to dissolve it in inner overcome too.

This moment was useful to discover enemy of Father inside of us. Smile to adversities, it is overcoming them with Love and comprehension that we learn.

Practice Greater Love.

5. The First Mystery

I write about the First Mystery, because it was something forgotten by students of Gnosis and all religious currents, going to the extreme of idolatry, losing the key and secret content of the fundamental objective that has each of us. We need to practice urgently.

The First Mystery is to establish an alliance with the Inner Father (our interior God that we all have one). Make an altar in your home, in a secret location to other people who do not accept this important principle of work, do not force anything.

In this place, put a little table with a white towel, a candlestick with three candles, representing the Father, Son and Holy Spirit, a crucifix with the Living Christ (looking to heaven), with his feet in a standing position right on the left foot. The right symbolizes, in this case, the Christ Force overcoming evil (left, the ego, defects) because there are two forces in action always as outside, in the world, as inside us. You can use the esoteric star that symbolizes the Self-realized Master. The Christ symbolizes inside of us the Victory over Evil.

When we talk about symbolism, we don't give it an objective content that is not the real thing, however, is all very real.

This is the work elucidated here, the victory over ourselves, allowing us to be transformed by Christ force, requires continuity in these practical principles. In addition to a deep hermeticism.

Get away from those who tell dreams to everyone, those who don't practice this hermetic principle because they clearly show they did not learn to decipher their dreams. Therefore, they will contempt the lessons contained in their own dreams, which primarily relate to themselves.

While there are the psychological defects we will not be trustable to the Father. That's why it's emergent to comprehend this so important principle.

6. The discovery of Defects Details.

When we are observing the principles of this internal point, we see that there will be resistance, that is, the defect won't let us concentrate in this point. Always comes with a song, a memory, an annoyance, opposite thoughts, feelings, itches and many other interferences. These interferences are already details of our psychological defects that continuously search for feed. However, we were so fast asleep that we couldn't notice this thing happening. The practice of intensive death will result in a little awaking to the free essence we have, which is nearly 3%, however asleep. But, at the moment of this practice, giving it daily continuity, essence goes awaking when faces with this inner reality. It is necessary to supplicate to Divine Mother an immediate assistance there, we must always ask for help. Unhappy the one who does not ask for help.

The Continuity in Dissolving Defects

In this important chapter, we cleared out that the continuity in the works of Conscience is fundamental, doing daily the practices we suggest in this book. Don't search for something easier outside, on internet, or programs. Each one must urgently

interiorize so that you can practice in your own the Authentic Gnosis, living the basis stages we put here, becoming 100% practical, 100% truth to yourself.

7. The Discipline

Here is delivered a **suggestion** of discipline during the week so that the practices can have results. It's very easy to lose objectivity of search, letting yourself surrender to several types of thought frequencies that comes, so, during the week, which is seven days, in six days we'll do defect-dissolution practices and Sunday we'll dedicate to meditation.

The Body Relaxation

Let us assert our inner discovery in a place in our home where we can rest easy. There, then we start a Relax. In this relaxation we will observe, imagining that our muscles will loosening, relaxing, imagine that we are a light feather. Imagining this feather flying in the wind, we imagine Relaxing going from the feet to the head.

Relaxing predates all practices that we suggest in this book. Learning to relax is as important as all other practices. If we don't learn to relax, we must practice often to achieve.

Concentration

After relaxing we go concentrate in a single inner point. We can take concentration to the heart, for example, or to a sound we have in our ears, similar to a buzz. There we go to the practice, keeping with the objective no matter what, keeping the continuity in this point. We will see that there's an internal resistance not allowing us to concentrate, this resistance comes from defects. Now we need to make a very conscious hyper effort to not deviate ourselves from the point we are focused. We will notice that there's an attempt and even a plan from defects to take us out of concentration.

8. The Intensive Death

This practice, if performed correctly, as said before, will sharpen the capacity for self-observation in our psychological interior. It will restore certain faculties as we practice. These Faculties are concentration, intuition, self-remembering, small awakenings of objective perceptions..

I remember that every practice needs to be applied with will, free of theories which many of them stand blabbering in our head. This gossiping comes from the defects which like these subjects. People don't give proper importance to this small detail of the waves of thought, don't notice where they come from, because of their lack of investigation. Commonly, the people accept the thoughts that arise in all directions, so they are easily manipulated.

As has been said before, from a thought comes a desire, which will lead to action. Here we see that everything started by the thought (intellectual center) and as there was no nutrition or work on that thought, it came taking proportions to generate a feeling (emotional center). There it amplifies even more and goes into other centers, such as the motor (which will lead to the action movement), to the instinctive center and sexual (it becomes an action because the sexual center contains very powerful energy).

We see the path that made the defect from a subtle involuntary thought, which enters into the vortices of force that are called chakras. From there they go amplifying more and more as we identify with it, until it already dominates all the centers, leading to a nefarious action, whether it's the egoism of wounded mystical pride, envy, stinginess, pride, lust, wrath, jealousy, laziness, which are sinister corrupt aspects of hate.

This practice of Intensive Death will come to rescue our capacity for inner change from objective reflections. Thus, the more we practice, the more we increase our capacity of perception to actions of psychological defects.

The practice of Intensive Death, as in all other practices, we start since relaxation, and we move on to concentration in a sound we have in our inner

ears. In this sound is all the information we need for our Self-Realization. Keeping a watchful eye on the sound, we'll see that opposite sensations will come thoroughly to take us out of this practical principle, very subtly these defects come stealing our attention, stealing our will to practice, etc.

At this moment a defect has interfered, we make a prayer to the Divine Mother, begging her to dissolve that intruder: "My Mother, take this defect off of me, dissolve it." And we will return to practice soon after this supplication. We will repeat every time we are interrupted again. Ever after supplicating for the death of a defect, we return immediately the concentration at the inner point. This way, if we keep up a practical continuity, we will awaken the Essence to the work.

By the way, only the free Essence will be made into Consciousness and from Consciousness the intelligence is born. That practice was passed directly to some friends in 2001, recovered by Master Raphael and delivered to mankind by his Boddhisattwa in 2002.

9. Death in March

This practice was rescued by Master Rabolú, for Master Samael taught it in a different way, using another sentence to depict, which is **death from instant to instant, from moment to moment,**

sentence used in his books. It turns out that many students, not sticking to details in moments of their lives, didn't allow themselves to comprehend this lesson which is one of the most important to the definitive advancement in Pathway of Self-Realization. This fact is shown in the intellectual people, as they read the books of Masters they take the teachings as something merely theoretical, subjective intellectual as they think it can be. In saying this, it's undeniable that there's always a reaction of many egos in the machine which use the intellectual center badly, not letting one comprehend nor pick up the emergent practical lessons of this tiny book. Notoriously, to practice these lessons is something very distinct of just reading, distinct of merely subjective understanding. The application of Death in March is to each activity we are doing, keeping ourselves focused in what we are doing, with the same self-observation we learnt to develop in **Intensive Death** practice. Any opposing defect, coming to take us out of our activity, is already a psychological defect detail whiling to involve us, to make us vulnerable, to live dreaming, without an objective gravity center inside us. And so we stay drifting, relying on multiple points of the desire bodies. These desire bodies must be transformed by working, very balanced, with Three Factors of Conscience Revolution. The Death March needs, as all others, a very individual will of really wishing to dissolve the psychological defects, something that has to be very well comprehended, because it's easy

to create concepts against the practices we deliver. However, it's clear that the hard part is practicing them in all its emergency and deepness. The opposite force that comes from ego will always create argument, generating discussions, justifications and dismay concerning the correct application of those practices. Have all the one comprehended how to practice? We emphasize that concentration is the key to all practices, either revolutionary or mystical.

10. The Decapitation

This name may even scare, but we will apply this Decapitation to the defect that we have already discovered, you can even use your imagination. We will perform it at our house after the work we have done with past practices in all our day. If we are true practitioners we will always discover a defect that has caused us most problems during the day. When we get home, we go to that place where we set the altar, light up the candles, do the process of relaxation and concentration. We imagine this concentration in our heart. We will then pray to Father move us to our temple-heart. Imagine a stairway that goes up and it goes to an immense door. We knocked on this door, it opens, we see two guardians (on the right is Jakin, on the left is Boaz) and we will greet them with hands to the chest, right over the left.

Inside we will see an altar, inside it is our Inner Father, the Divine Mother, the Christ and the Holy Spirit. On our knees we will supplicate help with all our heart for the death of the defect that we discover. Never use words in vain. We will do this one by one (defect), each in its own time, if there is more than one. At one side of the altar we will find a chair where we should sit down. We will then bring the history of the defect: how much it torments us, how it has done evil to us and to our neighbors, etc. Let us reduce ourselves in humility by supplicating with all forces to the death of this psychological defect. This practice is very emerging to all students, if they really want the Self-Realization Path. May there be plenty of voluntary hardship.

11. The Mystical Practices

The mystical practices are about astral projection and especially Meditation. These practices are distinct to the revolutionary ones by the fact of not supplicating the death of defects. Only duality is applied, because if one supplicates death of defects while practicing meditation, for example, other forces, not mystical, will intervene there. Thus, loses objectivity, sleeping instead of waking up. If a defect happens during the practices of meditation, look for silencing it by applying a Koan. Koans are no-answer questions that pursues silencing the egos. Like this:

“If everything is reduced to the unit, what is the unit reduced to?” or “If we clap a hand against the other it produces a sound; what is the sound of one hand clapping?” (V.M. Rabolú) or a Koan suggested in previous books, like this: ***“What is its truth?”*** The practical objectivity must be reached, it's really like searching a needle in a haystack. It is necessary to say now that dismay and laziness bloom out as you know there's a certain difficulty in practicing the teachings, so be warn everyone that it's hypocrisy intending to belong to a group and don't practice the lessons exposed by the Master, as they are indicated from above to under by hierarchies Themselves. Ego always takes the words at own discretion, it means, takes what is convenient, and saying it will take what is convenient from this book is already ego saying it. Nothing can be hidden from hierarchies. They do not let anything pass. What matters in fact is to practice without creating any expectation at all. Expectation already is the dream of conscience.

12. The Astral Projection

Every night we do the Astral Projection unconsciously. As we do not have a Solar Astral Body, just a sketch or bodies of desire, we go in Astral to dream of what we live in the day to day.

An expectation, no matter what it is, or a willingness to help someone can generate a mental

form and in Astral we will be there mechanically doing everything that is the target of this body of desire.

Only the Golden Solar Astral Body (Eidolon, Second Mountain) has reality and real objectivity, being able to move in Astral at will, but there is the Hermeticism, which has the sacred language of the Masters. The bodies of desire, the only thing they do is to generate expectations because of the psychological defects that constantly dream and make dream.

One person can dream about another and the other one doesn't even know that it happened, and this is the bodies of desire, they project what they want. It is different when you have Astral Projection, which definitely can only happen in an ascending way if one practices the Three Factors of Consciousness Revolution in a continuous, balanced, secret manner and, in addition, has created the Solar Astral Vehicle.

It will be in astral, when we are balancing the centers of the machine, that the tests will be applied, those tests come from the practical principle that everything we will see there concerns ourselves.

There are periods of instruction and qualification. In the period of Instruction, if we have been humble deciphers of the whole Teaching, practicing without frailty in dissolving the smallest defects, certainly in

the Qualification period we'll get lots of good grades. Otherwise comes disqualification, stagnation, etc.

In Astral, if we practice the Teachings, we will be taken to classrooms, we see ourselves in schools, we will see buses that take us and bring, we will see objects and other symbols that each one is exactly what we need to know about our process. But all this requires from us plenty of attention and hypersensitivity to decipher the depths that are shown to us in the symbologies.

The obvious is often used in a state of emergency, it always concerns ourselves. When Father or the Hierarchies appear is because we are going badly, it is a hyper-effort of them to help us return to the path of inner overcoming with urgency.

Many so-called clairvoyant have been manifested everywhere to say absurd to the students, this is for lack of learning to decipher and also for the mystical pride expressly explicit in those people of sleeping Consciousness, who pretend to be awake to project themselves on the other people. This is the mystical pride, feeding blocks of defects of fanaticism and mythomania.

The Masters already warned everyone about these characters. Real students have deep fear to Father, to God, to their Real Being, they live by Father's will, becoming humble to learn to die, because there are so many defect details that manifest every moment. Missing a single detail like

this is to feed a legion of other defects that always concur when we off guard. They act in blocks.

The Practice of Astral Projection

Laid down already in bed, we can project ourselves in astral consciously, even though we have an inferior astral body. We have to make a hyper effort focusing in our heart. We can use imagination maintaining a single internal thought, giving no space to gabble and go little by little disciplining ourselves in this practice. We keep internal observation in our heart, as if we were carefree, just there observing what happens. Focused in our hearts, we try to hear relaxed its pulsations, how it works, we see the valves where the blood goes through and then we go in deep in our heart, even if we feel sleepy we don't lose focus in the heart. If some images come to our mind, then we focus on them, just to observe them with more attention. Observe only, with no anxiety, nothing. That way, if we practice every day we'll gradually learn and also self-discover. We can use the vocalization of Faraon, this way:

FFFFAAAAARRRRRRRRRAAAAAA OOOOOOONNNN.

This vocalization will make the Astral Body vibrate, we'll feel then the transition happening, we just observe it all. As we feel lighter we see we are already in astral, in this moment we ask The Father to bring us to Universal White Brotherhood College.

13. Meditation

Meditation is what gives Conscience to the Essence. Meditation is one of the most important practices after revolutionary practices, as it will awake Conscience to our own interior reality. However this awakening is useless if we only practice Meditation ignoring the revolutionary practices we present here.

In Meditation we find some stages of conscientious development. The first of them refers to initial stage of meditation, that has its basis in observation inside of us, the relaxing and the concentration to a single interior point. Here we find that all practices always go back to a singular beginning, a singular initial point, both in revolutionary and mystical practices.

Meditation Practice

In a particular place we relax the body as we did in all suggested practices. We concentrate in our heart, imagine how it is in its form, the veins, the pulsation. We enter inside the heart and there we see long stairs up to an enormous door, the door of our heart-temple. Then we knock the door *toc, toc, toc* ... We see the door opening and there's a wonderful palace inside, where in an altar are the Christ, The Father, and the Holy Spirit. We salute all respectfully and we observe that at certain side there's another great door. We take ourselves there and open it. After this door there's a path which extends into a live forest, where flowers talk and move, we go through a path feeling the dew in the

grassland touching us as we walk. We look the path and it extends hill up. Up there we see a golden throne, we go climbing the path that passes through a live forest, with many birds singing, welcoming us and as we get close to this golden throne we see a Goddess in white and gold on it. She meditates in deep silence. We approach carefully to the front of this throne and kneel. Then we start to pray to Her, saying: *“Oh! Goddess of Goddesses! Oh! Holy Mother, that heals the son’s pains in the desert! Oh! Most Holy Virgin, that no mortal will ever raise your veil! Oh! Powerful Kakini of my days and nights, I supplicate from all my heart, help me to accomplish Father’s Work, sustain myself in the objective, don’t let me deviate a single step! Powerful Mother, Queen of afflicted soldiers, aid myself in the search for the hidden secrets inside of me! Hold me strong face to Father’s enemies, sustain your sword against any inhuman element inside of me. Defend me! Awake me! Oh! Mother Queen, so that I can serve only my Lord King. Amen”.*

After these words, we see Mother rising from the throne, at her right a fire sword, leans it on our shoulders, baptizes us as knights of heart-temple kingdom. We firm there the fidelity to Father’s will alliance, denying our will always. This alliance can never be firmed in vain, just for the sake of doing it. We will reinforce this alliance every moment seeking to be always aware of dangers that shall come by the path that leads to the Father. Dying every moment in pulses that comes from mind, because mind are

many minds and all them lie. They always tend to deviate everyone from the Narrow Path.

We then get up, in manliness, greet the Queen and keep on that path, where we see in the sky a large rainbow, that follows to horizon. We keep going into the path, we get to the peak of the mountain and say to the four winds: "What is all its truth ?" I am not this physical body, I am not this vital body, I am not this astral body, I am not this mental body, I am the Innermost, I am the Innermost, I am the Innermost, yes, yes, yes. In this moment all those images and scenarios are over, we wait the silence reveal something, something shall be announced by silence. We await with no expectation, nothing, nothing, nothing. We can reach Samadi (ecstasy in Sanskrit) doing this practice, because the causal world is the world of the essence, is the world where life pulses, because it's the cause of everything. There we'll find our own life objective. Once Samadi is reached, we won't forget home path anymore... Not even the most terrible tortures bad men in this world do to us, we will never be convinced, we went even beyond death. All the authentic men know this, all the Christ soldiers, all the wise. All those who were anointed by Lord, know what has been written here.

Imagination

Imagine, the way it's presented, in these Conscience objectives, is the same of seeing, it

means, **imagining is seeing** with Budhi eyes, eyes of the Soul.

14. Cosmic Brotherhood

The Cosmic Brotherhood is our own life. If we want to rise upon Self-Realization we must have deep humility of accepting the hand from above offered, which includes precisely the observation of current defects, which will need to be dissolved with urgency. Similarly, give hand to whom is closer under us, wishing to rise the step we are at. Precisely we must give the new candidate to the following step all the guidelines necessary to transcend the psychic obstacles which will bloom out at that moment (psychic aggregates). We can never forget there's always Brotherhood Brothers who are higher than us.

These lines are precious lessons to all of us, to all the ones that really want to climb the narrow steps of self-denying that leads to Father. For they are guidelines containing urgent necessity of a deep comprehension concerning uncountable psychic aggregates, which can gather in an arrogant protest, creating an involution frequency, making the initiate suppose he would climb alone the steps, ignoring The Son of Man and Brothers of Brotherhood. Thinking that Inner Father would be apart from Brotherhood. As did Brutus whiling to associate to Father all the involution frequency from Ego. This is

a prophecy of Son of Man that fulfils strictly. Unfortunately, actions like these strengthen defects related to the step.

Indeed, with such choices, ends up choosing involution, throwing up miserably head to abysm, feeding insolence, pride, rivalry, lack of humility and other defects that show up such as rage, associated to self-regard in injured mystic pride. Only very deep repentance can bring us back to ascendance.

All the inner lessons we receive concern exactly ourselves, besides the clear importance of these lines for each one of us. It's incontestable, so that each one sees clearly all the responsibility contained in each step of Jacob's Ladder, the Pathway, or also known as Wonderful Ladder of Being, full of dangers from all sides and constant overcoming. A Razor Edge indeed. Emergent is to wake up for the guidelines of Son of Man.

15. The Inner Transformation

As everything can be transformed, with us wouldn't be different, we can demonstrate here clearly that the transformation of everything that we represent is something necessary, if we really long to reach Self-Realization in the Being. Everything we are going to face, if we really want this task of transforming us, certainly will be our psychological gym filled of every situation of our life, and it always

has many opportunities of self-discover. I am referring to the fact that the revolution of Consciousness will never be self-suggested, as a religious option.

The sacrifice of ego is our own salvation. With no sacrifice nobody reaches any transformation. However, when we think we are doing great sacrifice, we must be aware that we will be charged for this sacrifice, that is, everything that we sow shall be harvested, plus the good and bad consequences.

Our insatiably thinking mind is not just a single thinking mind, but several. Thus, it's noteworthy saying that when we are really working on ourselves, the feeling is that we haven't done anything, and when we think we haven't done anything, it means that nothing was really done. When we think we did a good job, we end up feeding the mystical vanity of presumption.

In an adverse situation of our life, we meet an opponent. We must, first of all, never have it as an opponent, but be open to learn. The situation itself urgently needs to be transformed with the power of conscious will, this is the only one that transforms all things. Only by being in frank psychological nutrition, applying it from moment to moment, is that we have the ability to transform the impressions to each new challenge of daily living.

The tendency of ego is to be reactionary. The one who works over himself, in fact, always

preserves the calm and silent observation to everything that moves in and out his psychology (*frequencies, feelings, thoughts, etc ...*).

It was said by the Son of Man, in the form of a parable, the same depth:

Luke 12:51 – "Think ye that I am come to give peace in the earth? I tell you, Nay; but rather division:

52 for there shall be from henceforth five in one house divided, three against two, and two against three.

53 They shall be divided, father against son, and son against father; mother against daughter, and daughter against her mother; mother in law against her daughter in law, and daughter in law against her mother in law."

Undoubtedly that the victors will always be those who discover in themselves the evil they see in the other, because if they had the Innermost incarnated they'd feel in their hearts these words, would hear it vibrate everywhere, they would have a choice to make - *"Forgive your brother and take out of your heart the evil you saw in him, because what is more cruel than falsehood, treachery, that feeds the hatred and envy in opportunism of convenience? If you don't have part with Son of Man, with whom you will?"*.

16. With God nothing is hidden

Apprentice humility to recognize Son of Man.

To the ones confused ignoring discernment between truth or false, for laziness of deciphering the Works: said the Lord:

“If you can’t tell truth from false what kind of hypocrite you make yourself ? Because as you don’t accept Christic Conscience guidance indeed you will trade it for ignorance from who deny Son of Man and its falsity with envy, vanity, laziness and pride.”

The college always warns all candidates, who are living an everyday life on the pathway to self-realization, that nothing shall pass unnoticed. Nothing shall pass free for us, we are caught in many details, we don’t even know it. And many times the diligences change so that we keep careful in Lord and not attached to habit tracks (sinister psychological support) that egos always create every moment to keep on existing. If there’s no surveillance certainly there will be sleepiness.

The ego will always affiliate with false. That’s the way many abandon the Cross, trading it for a justify, something more quiet, more wonderful, etc., that predicates false prophet. In fact, the narrow door pathway told by the Master is very demanding, the door is very narrow and seems to get more and more narrow.

17. The Egos of Mythomania

The psychological selves, ego, psychic aggregate, sin or you can call as you want, will never gain initiations nor powers. The ego design its desires in the mind of the wicked vain dreamer. That's why everyone has been told to open their eyes to those who call themselves hierophants overnight.

The ego is the secret actor who captures the smallest desires and projects in the lake of the subconscious, where the pseudo clairvoyant receives false visions produced by egos. He deceives himself due to lack of information on the death of these defects of mystical pride. So, the mythomaniac ego assumes the machine, causing terrible damage, as it despises guidelines, thinking to be already self-sufficient.

This class of subjects is pitiful, they dictate rules, imprisoning themselves in them and other people. The ego distorts all, these subjects become fornicators inevitably. The ego feeds inner Satan, who always uses important artifice to label itself, becoming evident that it ignored all apprentice path, the denying itself, denying the internal Satan who boasts about those things. Rejecting to be neophyte, wants to jump to the top without any foundation.

All great Masters began as neophytes. Every Master honors the house where they acquired the knowledge, they know they can only enter as an

apprentice. Because they came there by the will of Father, to learn. The mythomaniac ego spits in Master, spits in the Teaching with their greatness attitudes. It is written that the one who becomes big should be the humblest of all, the servant. As long as ego exists, everyone is unworthy to use Lord's name.

Many doctrine mistakes emerge by egos of mythomania and fanaticism in all students. An authentic student of Gnosis could never go out defaming these subjects as mythomaniacs, because these attitudes will make them even worse than them. In this way they certainly lead others to error. These robust egos cause the loss of neophyte's humility for direct knowledge, to boast themselves. All initiates of Brotherhood College know this.

Shall no one ever feed the fear of denying yourself. From reducing yourself to a small servant, insignificant, it shall not become an automatic fallacy. The titles, congratulations, diplomas, poses and possessions of this world all they do is nourish the mystical vanity of the inner satan. Because we are all ignorant in the face of the Great Wisdom of the Great College of Initiates of the White Universal Brotherhood.

We are all neophytes before the Endless Cosmic Wisdom. Let us repent and then understand the phrase of the great Athenian philosopher - Sokratis contested that his wisdom was limited to his own ignorance: "I only know that I know nothing." This is one of the keys of Hermetic Knowledge. Then the

phrase often uttered by all the prophets of the past says: "Repent!" For when man discovers his ignorance is where repentance begins.

Undoubtedly the smallest of all will sustain the gigantic door of repentance. The one who has understanding, understand it. And prove by yourself. This is Real.

18. Manliness with the Pathway Brothers

Listening is always indicated. Beyond listening one must decipher what listens, because since the beginning of the world the hermetic teaching was present, that is, in hidden way, where loyalty and humility are always tested. Once said a Brother friend: *"Even if you know Father's name you must await the start of Second Mountain with endless patience, after passing by countless tests inside each Higher Mysteries Initiation from First Mountain of Initiation."* In fact, the one who has just come as an apprentice and steps up as the greatest, this one will be slave of all. What kind of example is him giving ? What humility is him teaching ? Another fact is that the presence of Innermost Christ is unmistakable for those who are avid of knowledge. They will notice clearly the presence of Innermost in the one who has incarnated, his sensibility, continuity, promptitude and humility. Apart from the frequency and firmness of his words whom notoriously, expressing in front of the people, the

Word of Innermost through him transforms all the place where he is, the ascendant force takes place.

Therefore, wisdom couldn't develop or sustain without humility. But, the one who becomes great after passing the Fire Mountain and joins in the Second Mountain, will diminish. The restart will be sure, will diminish each day more in silence, secretly, to the smallest, to comprehend deeply the greatness of his Father. However, it doesn't happen overnight. Get away from those who sell initiations, who promise salvation, as salvation doesn't come from ignorance. As Krishnamurti said: *"Ignorant is not the unschooled; is the one who doesn't know himself."*

19. The bodies of desire

The bodies of desire are what we call the lower quaternary: physical, vital, astral, mental, still inferior

by the fact that they only become superior if they pass through the initiations, tests, ascending degrees and churches of the spine (Kundalini) with endless internal overcoming.

The bodies of desire always project in dreams what the smallest desires want to indulge: the egos of mythomania, megalomania, schizophrenia, depression, anxiety, disloyalty; the lustful egos that act in the eyes, nose, in intellect, in the touch, which lead to nocturnal emission; among a multitude of other defects, living in the desire bodies.

But face to the great College of Initiates no one will enter feeding these egos as long as repentance is not profound, showing with facts the change so as to be helped to really enter the path. Desire bodies project dreams of many kinds, depending on what a person feeds daily in his psyche (*admittedly this is the opposite of psychological dying*).

All the people are just this way. Dream of being Hollywood stars, powerful, famous, full of poses, nobility titles, etc. They don't even suspect that all this feeds a multitude of psychological defects that are against the Teaching of Christ. Because each day more rare are those who understand the teachings of Christ.

Nevertheless, beliefs were created each one in the exact molds of what the faithful look for in their social dreams. A conniving god was created for all this. However, it is an infra-dimensional personified

form of self-deception. Interesting and truthful are the facts said by the Master Samael that says on pseudo-clairvoyance, where the subconscious designer designs the dreams that the pseudo-clairvoyant believes to be real.

Many people, as they enter our schools, call us blessed, angels, blessing us, etc., soon after, when faced with the demanding movement of the Consciousness, before the raw reality of lessons that Gnosis gives, get scared, they soon get another school that does not require so much discipline. From this moment they no longer see us as angels, but the opposite. How clairvoyant are these? We have met with this closely.

20. The Terribly Divine Teaching

Direct confrontation with the ego

Undeniable is this confrontation with the ego processed in and out the psyche. Among these, there are always some subtle tests where they test us if we are by the ego or by Father. In a clear way it's worth stressing that those who fear the Christian Teaching for its "Terribly Divine" nature, the direct contact with golden word of Son of Man will cause menaces, astonishment and horror to psychological ego, it shows clearly why the term is "terribly divine" (terrible for the ego, divine for the lack of ego).

In the delivery of the teaching the words and the expression Son of Man will always astonish the

wicked that, keeping connivance with delict, try to mix the wicked and holy, to do not discomfort psychological ego, evading what they see through ego's lens and call "reactions contrary to the teaching and peace". They act this way because they also feel astonished by the terribly divine Direct Teaching of Son of Man.

It also shows the fact that all those who became Son of Man have been executed; like all prophets before and after Jesus; Jesus Himself; the apostles Peter, Andrew; others martyred like Paul of Tarso in Rome and his disciple Lucas, besides All Hallaj, in Iran in 857 (the Maometan Christ who was crucified); they were martyred for delivering the Terribly Divine Teaching.

Many others persecuted such as Quetzacoatl, Samael, Rabolú, among others of the current days and of further days, coming front of battlefield. For Great Withe Brotherhood won't stop sending messengers, to prepare in secret schools, to indeed become flesh Son of Man. Only Him can be really just and truth.

No one understands Son of Man and his Terribly Divine Message, that causes horror to psychological ego, who facing Him, will always have many complaints, justifications, excuses, amazement, fear of reading or hearing his words, the ego feels menaced and quickly projects a bad feeling, so that one resigns learning something with Him or Gnosis.

Front to Him the impurity shows up, many ones can't even look in His eyes. His message will always be comprehended by few ones, and those few ones will certainly become Son of Man too if they don't deviate from the very narrow path that leads to Father's arms.

Many ones, as described, reading some parts of the Bible, say that Jesus had an authoritarian attitude which scared people...Now it's worth pointing out that ego doctrine, which is Balaam doctrine, Balak doctrine, of inner satan, feels scared with Lord of Perfection words. Everything before Him is imperfect, the imperfect projects over Him his own imperfection.

21. And begins the way

When it was told that this book is superior than all others, it is certainly because it reveals points of the doctrine of Light that in fact just a few are able to understand and to bear fruits. I refer directly to repentance that must have in depth understanding of 49 levels (as elucidated in parables to the most avid in the book Pistis Sophia), capturing the real meanings of each discovered defect. That's why we say that for a single defect there are many supplications, because the ego has many faces.

Today the one who comes to the Master and says: "Blessed be", tomorrow will be replaced by another that condemns him, with many complaints

against him. Hearing psychological support from ego that doesn't want to die, he will point out errors in Son of Man. Didn't even realize that everything it sees is its own error reflected in Him. Many ones say the phrase "We are all one" mechanically, without sticking the smallest relations, that this phrase refers to Son of Man.

Ego tries to camouflage itself in the mechanism of the deceit, but if we are all truly ONE, then it becomes evident before the Hierarchies that the defect that is seen in your neighbor will be yours too, and must die with urgency. But to live this reality is in fact inconvenient to the doctrine of satan. It does not want to hear, to discover, to experience in direct and silent overcoming, isn't it? It is something terribly divine.

The Teaching applied seriously and secretly brings us to maturity and within it the comprehension of these lines. Something fundamentally necessary for Father to believe in us, in all our hyper-effort, because the choice is made by our Monad (light) according to this maturity (equilibrium of the centers of the organic machine). We don't choose the light. The one who has understanding, understand it that the authentic Teaching comes solely from the Son of Man, and that this terribly divine Teaching will always bore the doctrine of ego. How many are bored by the Teachings of the Son of Man? How many are the Sadducees and Pharisees who always protest against his Teaching? Awake now to see this reality.

Either we are for Son of Man or we are for ego.
There is no in between.

The Son of Man rises up the straight path, in Authentic Gnosis. The Son of Man is born only on the Second Mountain. The cross is solitary, individual, no one arrives in bands bearing all a single cross. To be against It (the cross) is to be against the Father. The horizontal part of the cross is Yoni - it represents life; The vertical part is the direct path - Phallus. The union of both (in the 2nd factor) transforms life. The Holy Grail is Yoni. The ritual of the Holy Grail is the Sahaja Maithuna. The Vertical Path or the Straight Path is the only path that leads to the inner self-realization of Being.

Sahaja Maithuna is the ineffable love full of respect and responsibility of a legitimately married couple, who secretly proposes the fulfillment of the secret work of sexual alchemy (the practice of transmutation of the creative energies without seminal ejaculation), with many continuous hyper-efforts to keep the flame of Love burning in their hearts, never spilling their energies into fornication. Thus man and woman will become terribly divine beings, where the fire of love will be led into their laboratories (physical body), leading the sexual energy not ejaculated inside and up (see the Cosmic Drama DVD and the Sermon on the Mount) .

22. Lower Mystery Tests

After passing by lower mystery initiations, the four elements one, for example the air test, which is dreamlike, and we see ourselves falling down, and this fall has no end. Related to one of many courage tests.

And the fire test is related directly with patience, balance, etc.

Earth test, the loyalty, courage, to see yourself buried or two mountains enclose, and us between them.

Water test, see yourself swimming in high seas. Among other similar symbols.

It's recommended a deep study into Master Samael Aun Weor, who elucidated the maps of the path in his book "The Three Mountains".

We highlight the care when acquiring books from Masters after their death, for the fact of distortion, adulteration that lamentably has been found. Look up for the origin of these books, dates of publication, etc. The recommended ones are the ones of New Order.

23. Principles of Comprehension about the Job

Done is here a little synthesis of the Job, emphasizing the death of psychological defects, the defects that make people fail in the pathway. Before you want the teaching, it's needed to have deep sincerity if you really want to do this liberation job.

The teaching demands plenty of decision, comprehension, will and respect. It's Lord's path through narrow door.

After maturation in hermetic principles of the Teaching which are precisely contained within the expression ***“Terribly Divine”***, demanding a hyper effort, really conscious to decipher the master's Teachings, meanings and higher mysteries, which will be always hidden, reserved to each one that matures creator comprehension in these underlying items of Live Christ Doctrine. As it has been said, Christ Doctrine and Its Teachings annoy deadly the ego doctrine, of egomaniacs. As there will always have many ones conspiring furtively against Lord.

However, as repentance is the last door to be closed, everyone will always have this chance responsibly, then will be given the keys of the Teachings which will come certainly from a Higher Mysteries Master walking by the hard tests of Second Mountain. That's why They exist and always will be at least One of them at front. None shall doubt this. Will be really notorious his Work. Practice to recognize him.

24. Centers Balance

With the practices suggested in this book, the candidate or apprentice will, as he continues on, balance the centers of the organic machine, which are five lowers: Intellectual, Emotional, Motor, Sexual and Instinctive.

In these centers there's a direct link with the Chakras, the force vortexes, precisely where the psychological defects feed themselves.

When we perform self-observation, we discover the egos (psychological defects) inside of these centers. Supplicating their death to Divine Mother, we take them out of the centers, and then the centers of organic machine grow balancing. We will, in the continuity of these emergent lessons, gather an excess of energy which was not wasted by defects.

With this surplus, we transform the mercury. We feel in this process a certain heat at the bottom of spine, not very often at first, further will be more intense with continuity of efforts. This heat is the very transformation of mercury from dry to white, from white to yellow, and finally red. The Red already is Sacred Fire.

Obviously, all this process will only be possible with very balanced application of the Three Factors.

The person must be rightfully married. Anyone who goes adventure with women to practice Sahaja Maithuna becomes leftist to Father's purpose. As Master Samael said in the book "The Perfect Matrimony".

In the following themes we suggest some biblical verses (*we advise the Bible of Casiodoro de Reina – 1569. Bible in Spanish, United Biblical Society.*) Will be elucidated the relation between the churches

cited in John's Revelation, which has its correspondence with Seven Initiations of each Mountain, in the way Uprise of sacred fire by dorsal spine.

Ego dies by stages.

25. The First of Higher Mysteries

It is worth mentioning that in first initiation of fire (*in Bible REV 2 – 1 to 7*) or Physical Body one, we receive a staff, that represents your own spine, but it is not mastery; there then is the church of Ephesus; very notorious is the manifestation of kundalini in physical body. And then comes Umbral Guardian test, a bloodcurdling ugly creature, that represents there all our defects personified. We meet front to this creature and if we run away fearing it, we are defeated; if we keep courage as fearless soldiers, we win. It happens if we take good grades in application of defects death. If we really practice what is passed to us, we win this test.

In the first of Higher Mysteries loyalty and fidelity to the Teaching and the Master will be tested, where charity and love for the little ones will be tested as well. However, the leftist forces will come from all parts so that we don't go on in the pathway, storms and tempests in intellect, low frequencies of ego doctrine come over us trying to take us out. If we win, then it's given the right to eat from tree of life (*symbolism of meek serpents*).

Obviously, these leftists will point out all kinds of evil in the Teaching and Master. Both inside and outside by people driven by these same egos. All the situations always demand calm and wisdom. Which are only acquired with practices in continuity. Always consult Innermost, Father.

26. The Second of Higher

Relates to when the sacred fire starts to rise slowly through Vital Body spine, Smyrna (*in Bible REV 2 – 8 to 11*). Here one passes the prison test that all students of Gnosis know and received this alert as teaching, because there must be courage to face all the terrible tests.

Indeed, everyone will always be against the ones climbing Lord's path, precisely because of ego doctrine everyone is in.

Happy is the one conscious of these lines here written. Because if one is afraid of initiation, will certainly be stuck. We are accused for anything, and they throw us on tides of reasons. People see the initiate with contempt, diminishing him, accusing him of disparaging beliefs, of delivering a profane Teaching, opposite to society's costumes.

Finally, the initiate in this test will certainly have to supplicate with his very heart to sustain on pathway. Never deviate himself for the oppression or repression from the ones sleeping in ego doctrine.

The initiate must be firm and continuous in his purposes before the Father, because here will be made the alliance in obedience with Hierarchies, which must fulfil until the end.

In this initiation we receive plenty of information about Jinas world, where Jinas masters always help us covertly into fire Rise through spine. The Heart, indeed, shall be weighed front to each supplication made. This test stands for at least nine days or so. Everyone stands against the initiate. He must have a lot of courage to keep on, because moral values fall apart. All the self-defense concerning reputation must be considered carefully. Uncountable automatic reactions of self-defense will show up, because in all this psychological systematic certainly hides ego doctrine, personified mistakes. Decided supplications with heart on hands, so that one by one they are eliminated, many egos of appearances, mystical egos, fanatic egos, trickster egos and of proud, rage, besides filthy lust.

Front to this test will be seen an infinity of yelling egos falling apart, each one with an injured reason, many complaints, etc. Happy is the one who doesn't identify with them, performing really the nutrition in supplications to Divine Mother each second they show up.

There are 33 canons fire must rise up. In each Rise of fire, there are many overcomes, where will always be defects to be comprehended and

eliminated. Be Patient, be Humble, be Charitable (deliver the teaching) and be Tenacious.

Vital Body is the double tetra-dimensional (four dimensions) of physical body. Formed by four ethers: Reflector (linked to will and imagination), Lightning (linked to sensorial perceptions and extra sensorial), Chemical (linked to organic functions) and of Life (linked to race reproduction).

27. The Third of Higher

It's Noteworthy that this Teaching exists before foundation of world, it is a perfect teaching. Therefore becomes perfect the one who passes by all initiation, living the Three Mountains. No one has ever changed the Straight Way which is Authentic Gnosis, no one will ever do.

Third Initiation corresponds to Astral Body (*REV 2 – 12 to 7*) Pergamum. Similar to the previous initiations, sacred fire will now rise slowly through 33 canons of spine.

In each canon will be found a surprise to be overcome, the new will process at each second in this initiation as well in other initiations, in fact, many lower emotions will need to be overcome. It demands constant retakes in deciphering dreams, which are no longer dreams but Hermetic Teachings which need to be deciphered.

In this initiation, we are going to have at our front a Guardian similar to a giant, looking like cyclops, but it's the representation of laziness egos, conformity egos, presumption and pride egos, uncountable egos linked to lower emotions, anxieties, wills of power, etc. In this initiation, the initiate must assume a constant retake on psychological defects death, where we meet in many situations in astral, facing situations of lust, insinuations, projection in infra-dimensions, we go down to investigate.

We all carry inside of us the ego doctrine, minions of Balak's doctrine (*hanasmussens that distort the Teachings to satisfy egos; trying to mixture the Teaching with ego doctrine in vain worship*). The processes of ego death happen always in gradual way, showing clearly the levels of Being each one will have to overcome.

This level of Being is similar to a stair that rises inside of us. Each step corresponds to an overcome against a defect. In other words, it's the very Jacob's Ladder. Few have climbed until the end. Turns out that this climbing processes itself precisely in Three Mountains of Being Self-Realization. Always demanding new retakes. It shows clearly that in these retakes we are always coming back to zero, to the start, beginning, with an endless patience, even if Father's Word becomes firm and evident, making ego doctrine really shiver in those who are cocooned in it. In Fact, they will protest against Father's Golden

Word. But it is the harvest itself, the selection itself, that happens internally. Shall happen physically.

In the book “Fiery Conscience” there’s a very interesting clarification about Albert Einstein’s formula seen by Gnosis point of view delivered by V.M. Raphael, helping to comprehend that death and birth are strictly linked with transformation of dense matter (*dissolution of psychological defects and transmutation of creator energies*). And also clarifying precisely the power of supplication, the potential of transformation in the moment it’s performed.

28. The Fourth of Higher

Here we relate to Mental Body, Thyatira (*REV 2 – 18 to 29*). We think we possess a mental body, yet we don’t have it created...

Only with the climbing of initiations delivered since Earth foundation, very well comprehended and being lived in its totality, sticking up, self-observing ourselves carefully, we will fatally discover we have a crowd of egos inside mental spectrum.

Many say about mind power, but it’s noteworthy saying mind has no power at all, besides we don’t have an individual mind but many minds. The mental body in fact looks like a boat full of leftist crew, all fighting each other to assume boat’s rudder. It explains behavior changes, sometimes we are sad, sometimes angry, sometimes we believe in Master

and Christ, then others get inside the machine and are against the Master.

So, getting inside of other solar bodies creation, turns out that solar pathway is very demanding, like a razor's edge. The Rise of sacred fire in the mental body when it reaches eyebrows and heart, then superior quaternary is born. Becomes a Budha.

In fourth of highers the Innermost will firm the alliance, then gradually Christic Mind gets structured in the way we come fighting. All of us "*human souls*" in these heights will have to revive the alliance firmed by Innermost in constant hyper effort to make our word worthy. Will be needed to quest in the darkest departments of us, of our mental body, to discover traitors of Father's Job, that hide inside of us, the hydra of Lerna, with its seven heads, face Mara or dark dragon which personifies the three traitors, where, as in the other initiations, we must find the dog Cerberus which will guide us inside of these narrow infra-dimensional trails to overcome terrifying creatures that live in obscurity of our infra-conscience.

All this is lived by the real initiate, it is not a tale here written, these are real facts lived by all real Budhas. Thousands of heavy atoms will have to be discovered, atoms we created in defects details of **lust, rage, avarice, pride, envy, greediness, laziness**, among thousands of ramifications of these seven legion heads of egos that extend inside in a terrible density, in deep evil environments.

Here the initiate will need to have plenty of courage to never let deviate for insinuating dark muses with their evil beauty, in terrible blackmail seduction, emotional, personifying the terrible inner medusa.

The battles happen inside and outside, because inside and outside matter becomes the same battlefield for the initiate. But it is in astral that the Innermost will fight fearlessly against all this legion of leftists, with Divine Mother's aid all the time.

The job is something narrow, with danger from all sides, the heart must be qualified and sacrificed before the holy altar of heart-temple, it must be something of constant retake for the initiate.

In face of Christic Mind, the initiate not being lustful, everyone will tell him lustful, not being wrathful, everyone will tell him wrathful, not being liar, will tell him a liar and etc. It results that these attitudes will only show his life in truth. With no reactions, he can't feed reason, self-defenses or any reactionary ego. These situations will help him discover any new manifestation of reactionary defects which show up immediately. However, he won't let it manifest, dying in himself, this way Innermost will manifest, and his words in fact will tremble leftist's doctrine. Inside and outside.

All the bodies will need to be christified. This is the path. The one who wins will have the authority of Golden Word.

In History of humanity the opposite doubles have always existed, Master Samael and Master Rabolú warned us about it with plenty of emergency, saying that these doubles come up when a higher mysteries master comes up, for example Jesus and Barabbas.

The doubles do everything backwards; while the Master teaches the right way, the double teaches to hate the Master, they are really jealous.

The Master teaches hermeticism, the double teaches the fatality of betraying Divine Mother, with mystical egos, giving examples of disrespect to hermeticism.

If Master teaches first mystery, the double teaches betrayal to first mystery with vain words and empty terms, supporting himself, whiling to possess himself, in a terrible self-consideration, it's hypnotic.

While Master overcomes himself in secret, the double publicly flatters and creates leftist covens opposite to the Master.

While Master teaches forgiveness, the double teaches hate, incomprehension and vengeance.

The Master teaches the good work, the double takes the crowd following the Master to betray and do bad works.

In internal worlds this double looks like a lizard with bat wings which walks on foot, an enormous mouth, always pours its energies.

While the Master teaches the correct alchemical labor, the double teaches fornication between the lines.

The Master is always praying in the inner temple for everyone, while the double wants power to cohabit with ladies conniving with his false oracles.

The Master delivers truth Gnosis, the double twists Gnosis to accommodate and gain followers, he longs to own the Teachings.

While the Master reduces himself under his ignorance to live humbleness, the double brags himself feeding inner satan.

Sooner or later the personal tragedy is inevitable. No one can ever deceive The Divine Hierarchies. Law is always fulfilled. May all the Masters be aided by Jupiter's Justice Knights.

29. The Fifth of Higher

It is where the initiate becomes Master. The sacred fire will create and rise through 33 canons of Causal's body spine, the conscientious will body, related to missions of Sardis church said in Bible. (*REV 3 – 1 to 6*).

Here all our efforts will still be doubled, as we may have to start all over. It's noteworthy this retake is something that is present at every moment in initiate's life.

Each canon of spine represents a grade being ascended in each one of Seven Churches, that is, retakes are made in all initiations, as a strong basis (foundation) which is tested.

There will be a continuous hyper-effort in keeping the direction, considering the followed attacks of opposite pole, besides the Nirvana Masters attempting to seduce the initiate to choose the wide path but not the Direct Path (narrow door).

By this time one must have firmed several times the alliance in obedience to his Father, for this first mystery is what will sustain us face to the most terrible tests.

We can never forget our Father, Father is the one who chooses the Direct Path, will never be our imprudence, presumption, arrogance, self-consideration, etc. That is why it's being told, always alerting that loyalty, obedience and fidelity are tested many times.

30. Venusian Initiation

Said the Lord: *Philadelphia church (REV 3 – 7 to 13). “I know your works, and here in front of you is placed an open door, that nothing may shut, because the little on force have kept my words, and have not denied my name. And here I give you satan’s synagogue of all the ones who say themselves just and they’re not, but lie. I will make them to come and worship on your feet, to know that you are my beloved son. Because you did keep my words with*

endless patience, I also will keep you from the hour of trial, which is to come upon the whole world. I come quickly: hold fast what you have, that no one take your crown."

In Venusian Initiation of First Mountain of Fire, we receive plenty of information, where all the Lord's enemies are attracted to the one reaching this height. Including satan's synagogue itself, the leftists will hear the power of Creator Word, of Innermost. Will recognize it's truth, but all enemies that emerged there will be revealed, satan's doctrine lovers, that even in front of worship temple, they do not enter and don't let others to enter. These ones who betray the Guru, the Master from above anointed by Father, certainly are leftists to Father's purposes, their mission is to stop Son of Man from passing.

Laodicea (REV 3 – 14 to 22). The exchange and the choice, where all the things will be donated, give up from wealth, goods, all the ostentations, everything you have for the gospel and for Perfection Lord, who will come from inside of us.

However, it will be really notorious to everyone by the strength of the word, where the avid for Conscience will feel the presence of Son of Man in the one who has incarnated Him, the victorious of all this *via-crucis*, in the strength of his words. Including the leftists will know that He has come to Earth. And that he came precisely to clear the passage, to wipe out from the door all these creatures that, in fact, feel troubled by the force and courage of Son of Man that

is born in Master's heart who started the Second Mountain of Resurrection. Because Son of Man, the one whiling to be with Him, can never serve two masters. In front of Him you will be ashamed for your bad works and ostentations, without him doing any effort.

When ego doctrine feels humiliated by the force and perfection of Son of Man, will make complaints against Him, protests, swearing coward words of self-consideration, inverting God's words, to defend the legion of leftist minion. However, triumphant will always be Son of Man...Blessed be the live Christ !

All the initiations will be qualified in this Second Mountain of Resurrection. All them, no one apart, will be qualified one by one, grade by grade, canon by canon. Said the Lord: (REV 3 – 21) *“The one that overcome, I will give him to sit down with me in my throne. As I also overcame, and sat down with my Father in his throne. (if only one can sit down in a throne, uniquely here in this very narrow stage will become ONE with Him, the same way He is sitting in Father's throne and the winner sat will be in his throne, behold here is the ascension to Father, corresponding to the Third Mountain, to Ascension in unification to Father).”*

31. Author's Notes

Here is written a truth work, always in obedience to the supreme Great Withe Universal Fraternity

College. On behalf of endless and constant Christian Will of Overcoming conduction of mine, face to this very clear and ineffable Teaching, certainly this thing that has been said will be comprehended by all those who know how to diminish themselves with compunctious heart to discover your enormous ignorance.

Father, Who has sustained the objectives of this existence, never abandoned me, as well as a heart in eternal sacrifice cannot be injured. A heart serving the Great Withe Universal Fraternity, serving mankind uniquely by Father's will Who is in secret, not looking for anything in return.

Here is publicly emphasized that Golden Word has taught me very much and transformed me. For there's always so much to learn. I ask the content of this book to be practiced by all those who really want to serve Father and the Hierarchies. Live this book completely, stick around every paragraph, reflect, strive, because this is a truth work.

To all brothers who see me as an enemy, I dedicate these words. I never saw you as enemies, but as friends, because all you have helped me enormously in these hard and lonely steps into this fiery path full of dangers.

Comprehend the Hermetic Teaching.

"No one meets Father by boasting the enemies."
Love all your neighbors. Thank you very much.

In the name of truth, what is said is accompanied by all Hierarchies of Cosmos, as passed lessons. I sign here as just a man who lived everything that is written here, who sustains this Teaching in the name of Father bravely, courageously and determined. Only a dust, an insignificant vehicle serving Solar Logos – The Absolute in Wisdom.

I discovered deeply my ignorance, forgive me about it. However, it's shown in history of mankind, that everyone who discover his own deepness annoys deady the ego doctrine.

The Word made flesh annoys deady the Antichrist doctrine. This is clear to the beings who awakened Conscience.

I'm uniquely by Father and His narrow will. I love all the beings.

Fernando Corrêa
